

[PECB Certified ISO/IEC 27001:2022](#) Lead Auditor training course (ISMS Lead Auditor Certification) is more desirable and valuable than others because it gives you the knowledge and skills in auditing an information security management system (ISMS). In addition, the course teaches you how to apply those skills in practice. Apart from showcasing what the ISO/IEC 27001 standard tells you to do, this training course tells you how to do it, through various activities, exercises, case studies, multiple-choice standalone quizzes, and scenario-based quizzes. These will allow you to test your knowledge about the implementation process steps.

After attending the training course, you can take the exam. The exam type is unique because it is open-book and contains multiple-choice questions. The exam contains standalone questions and scenario-based questions, which aim to simulate real life situations. If you successfully pass it, you can apply for a “PECB Certified ISO/IEC 27001 Lead Auditor” credential, which demonstrates your ability and practical knowledge to implement an ISMS based on the requirements of ISO/IEC 27001.

At the end of this course, participants should be able to:

- Explain the fundamental concepts and principles of an information security management system (ISMS) based on ISO/ IEC 27001
- Interpret the ISO/IEC 27001 requirements for an ISMS from the perspective of an auditor
- Evaluate the ISMS conformity to ISO/IEC 27001 requirements, in accordance with the fundamental audit concepts and principles
