

Be a world-class project manager and acquire skills that are transferable in any industry. The Project Management Professional (PMP)[®] certification is the gold standard of project management worldwide. Learn how to become a professional project manager by attending this course. This course provides the OFFICIAL PMP Review Training Materials from PMI and significantly increases your preparedness and ability to pass the PMP Exam. Why waste your investment by enrolling in unauthorized training centers? This is THE REVIEW COURSE if you are keen on taking the PMP Exam. By completing this course, you will have achieved the 35 contact hours needed in applying for the PMP Exam. Taught by the most experienced and only PMI-badged trainers in the Philippines, you will know what real project management is all about in this training.

At the end of this course, participants should be able to

- Know what the PMP Exam is, how it is structured, and how to take the PMP Exam
- Understand the impact of the Business Environment on projects and how the Project Manager can navigate projects in his Business Environment
- Understand the factors to consider in starting a project
- Understand the factors to consider in planning a project
- Understand the factors to consider in leading a project team
- Understand the factors to consider in supporting project team performance
- Understand the factors to consider in closing a project
- Assess one's readiness in taking the PMP Exam
