

Effective supervision is critical for organizational success in today's rapidly evolving corporate landscape. Supervisors play a pivotal role in bridging the gap between management and employees, ensuring smooth operations, and fostering a productive work environment. The Supervisory Upskilling Program for Excellent Results (S.U.P.E.R.) Training Program is designed to equip new and experienced supervisors with the essential skills and knowledge required to lead and supervise teams effectively. This comprehensive program focuses on building a solid foundation in supervisory roles, enhancing communication and interpersonal skills, and mastering team management techniques.

The training explores the fundamental responsibilities of supervisors, emphasizing the transition from peer to leader, and highlighting the importance of credibility and trust. Participants will learn various leadership styles and core supervisory skills such as critical thinking, problem-solving, and emotional intelligence. Effective communication techniques, conflict resolution strategies, and methods for providing constructive feedback and coaching are also covered to ensure supervisors can navigate the complexities of interpersonal relationships within their teams.

Furthermore, the program delves into topics such as performance management, as well as time and stress management. Participants will gain insights into setting clear goals, monitoring performance, and addressing performance issues constructively. The course also emphasizes the importance of work-life balance and provides practical strategies for managing stress. Participants will leave the program with a well-rounded understanding of effective supervision in the modern corporate setting.

At the end of this course, participants should be able to:

- Explain what Common Challenges that Supervisors face
- Describe the Core Supervisory Skills needed by Supervisors
- Enumerate and identify the proper steps in effective Feedback and Coaching
- Explain the different ways how to correctly Motivate and Engage teams
- Demonstrate how to properly create SMART Goals
- Demonstrate how to use a Time Management Tool covered in class

- Demonstrate a Stress Management Technique in class
